

# SuperTree Super Performance

These trees were planted in July of 2009. The photos on the left were taken in November, 2009, while the photos on the right were taken thirteen months later, in August of 2010.

▲These photos show the difference in tree caliper thirteen months after planting ▲

Both the of these trees were planted in late May, 2010, in the same block. The tree on the left is the SuperTree. The tree on the right is a ball and burlap.

**Clearly,  
the Super Tree  
Can Perform!**
